“ Aunt Dee was the woman in my family who I wished I had known when she was younger.

Strong, confident, attractive, she spoke her opinions clearly and kindly.

She married a most beloved grand-uncle, Eulin "Buck" Wood, and I knew from later conversation with her that she knew he would treat her sons as his own. She took care of her family, and I really admired that.

I have packages of needles, spools of thread, little crocheted doilies, and some fabric from her vast quilting supplies. My daughter Marina has some crocheted animals from Aunt Dee.

I will miss her. She was the last of the born-long-ago people in my family.

Love to all who loved her.

“ Mrs. Wood, as I always addressed her, was a wonderful person-caring, warm, and confident. I worked with her in advertising Woods Aquarium in special editions of the Enterprise-Record. I knew her son, David, as a classmate in grammar school. I'm saddened to her of her passing. To her family, my sincerest condolences.
